

Quality Assurance Specialist

JOB SUMMARY:

Are you ready for an exciting career with a technology firm that is working on cutting-edge products? Then come join the geoAMPS team and be part of a software-product organization that has a cool work culture, great work atmosphere and amazing growth potential. geoAMPS is currently seeking a **Quality Assurance Specialist** to join our team in Powell, Ohio, and lead QA and requirements gathering for our suite of products.

The ideal candidate will have a mix of technical knowledge and automated Testing knowledge to understand our clients' needs and identify how they fit within the geoAMPS framework.

geoAMPS is the market leader in providing software solutions to manage land rights and infrastructure assets. geoAMPS was founded on a simple notion: offer the best technology solutions while forming lasting relationships with our clients. We are pushing the industry forward by bringing state-of-the-art technology, increased communication and quicker project completions for our customers.

PRIMARY RESPONSIBILITIES

- Implementation of projects primarily involving Microsoft technologies
- Testing strategies
- Test planning
- Test coordination

EXPERIENCE

- 4 to 6 years of experience in the testing field.
- Experience participating in requirement walkthroughs / reviews.
- Experience creating manual test cases for functional requirements.
- Experience with creating SQL scripts required for QA purposes.
- Work with Business Analysts and Support team members to understand requirements and question/suggest improvements.
- Work with product development team members to identify areas for product improvement.
- Experience working in an agile environment.

REQUIREMENTS

- Good analytical, problem solving and debugging skills
- Ability to articulate the defects/concerns orally and verbally, and have the ability to work with product development team members.

Software Solutions to manage
Land Rights & Infrastructure Assets

- Ability to switch between multiple projects/clients with ease.
- Follow the current QA process and suggest improvements as deemed necessary.
- Eager to learn and work in a challenging environment.
- Very keen eye for detail.

TECHNICAL REQUIREMENTS

- Application testing
- Application support
- Creating QA documentation

EDUCATION

- Undergraduate degree in IT or Business field preferred
- H1B visa sponsorships are not available at this time

WHAT IS IN IT FOR YOU?

- Being an integral part of a dynamic, growing company that is well-respected in its industry
- Competitive pay based on experience
- Medical, dental and life-insurance benefits

***You must be legally entitled to work in the United States in order to apply for this position. geoAMPS is an equal opportunity employer.**
